

Guide – Access Zoom Room on the iPad using your voice

Enable iPad microphone access:

- If you have previously denied Zoom access to the microphone, you will need to manually allow access before using voice commands.
- Open the iOS Settings.
- Click Privacy.
- Click Microphone.
- Toggle Zoom Rooms to “On.”

Enable Zoom microphone access:

- Tap the settings icon in Zoom.
- Tap Room.
- Tap Enable Microphone Access.
- Enter your Room passcode.
- When prompted to allow access for the microphone, tap OK.

Start a meeting:

- Say “Hey Zoom, start meeting” to start a scheduled meeting. This voice command only works for Zoom meetings that are already scheduled.
