

Guide – How to pair a Bluetooth mouse or track pad to the iPad

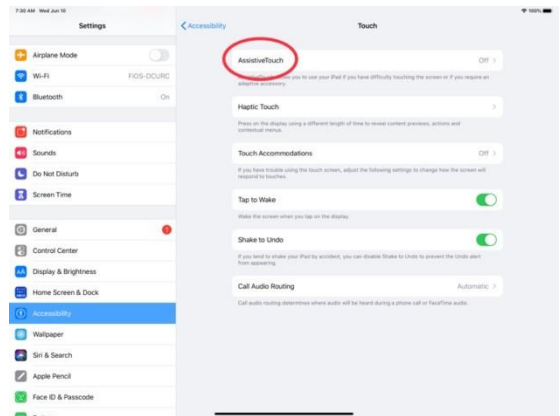

Change settings

- Go to Settings.
- Make sure that you have Bluetooth turned on.
- Scroll down to Accessibility and tap.
- Under Physical and Motor, select Touch.

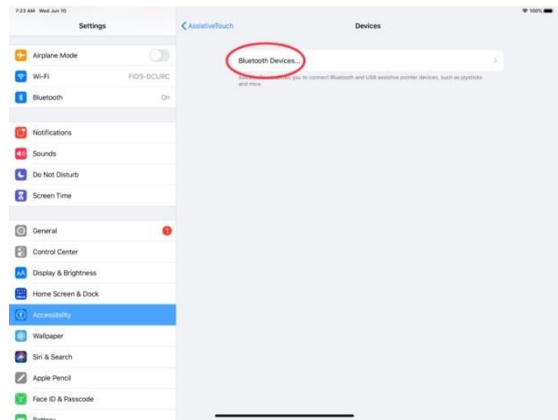

Assistive Touch

- Tap Assistive Touch at the top of the menu.

Bluetooth Devices.

- Scroll down to Pointer Devices and choose Devices → Bluetooth Devices.

Pair Device.

- Your iPad will search for available Bluetooth devices.
- Select and pair with your mouse or trackpad.
- Once paired, go back a screen and go to the top.
- Toggle Assistive Touch on.
- You will then see the pointer (cursor) on the screen.
