

## Guide – How to use Google Meet to make a video call

### Open Google Meet

- First, find the icon with a green video camera on a white background. Tap to open.

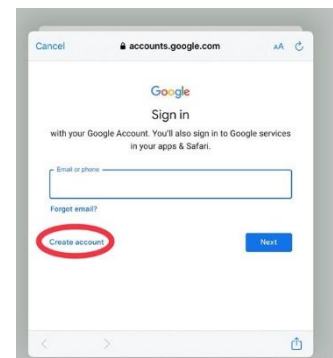

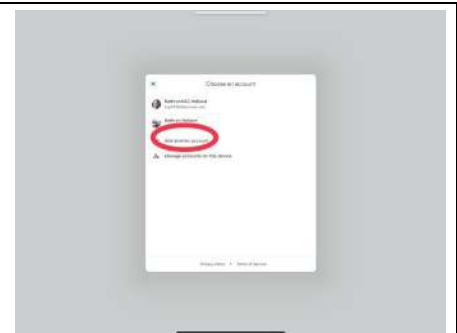

### Sign in

- Say “Allow Google.com to “Sign in”

Or create an account if you do not have a gmail

- Either sign in with your Gmail or Create an account.
- Create a password and tap Next.
- Don't forget to write your password down.
- You can save your password to the iPad, but you will probably want to have access to this account after you send the iPad back to TechOWL.

## Create a meeting.

- Add a phone number.
- You will then be asked to sign in with the new email address and password you have created.
- You will then see the Create a New Meeting option on the bottom left.
- You will then see a pop up that allows you to share the link to that meeting.
- If you are joining someone's meeting, choose Meeting Code on the right.
- Enter the code you were given.
- You are now ready to have your video chat!
